Welcome to the exhibition “Glückauf – Action! The History of Cinema and Film in the Ruhr Area”

Cinemas have been in existence for more than 100 years now. Our exhibition is being held in celebration of the oldest cinema in Essen – Filmstudio Glückauf, which turned 100 this year. The exhibition is presenting numerous film clips both old and new and all kinds of things having to do with films and cinema – for example clothes worn in films, film posters, photographs as well as fascinating devices and equipment.

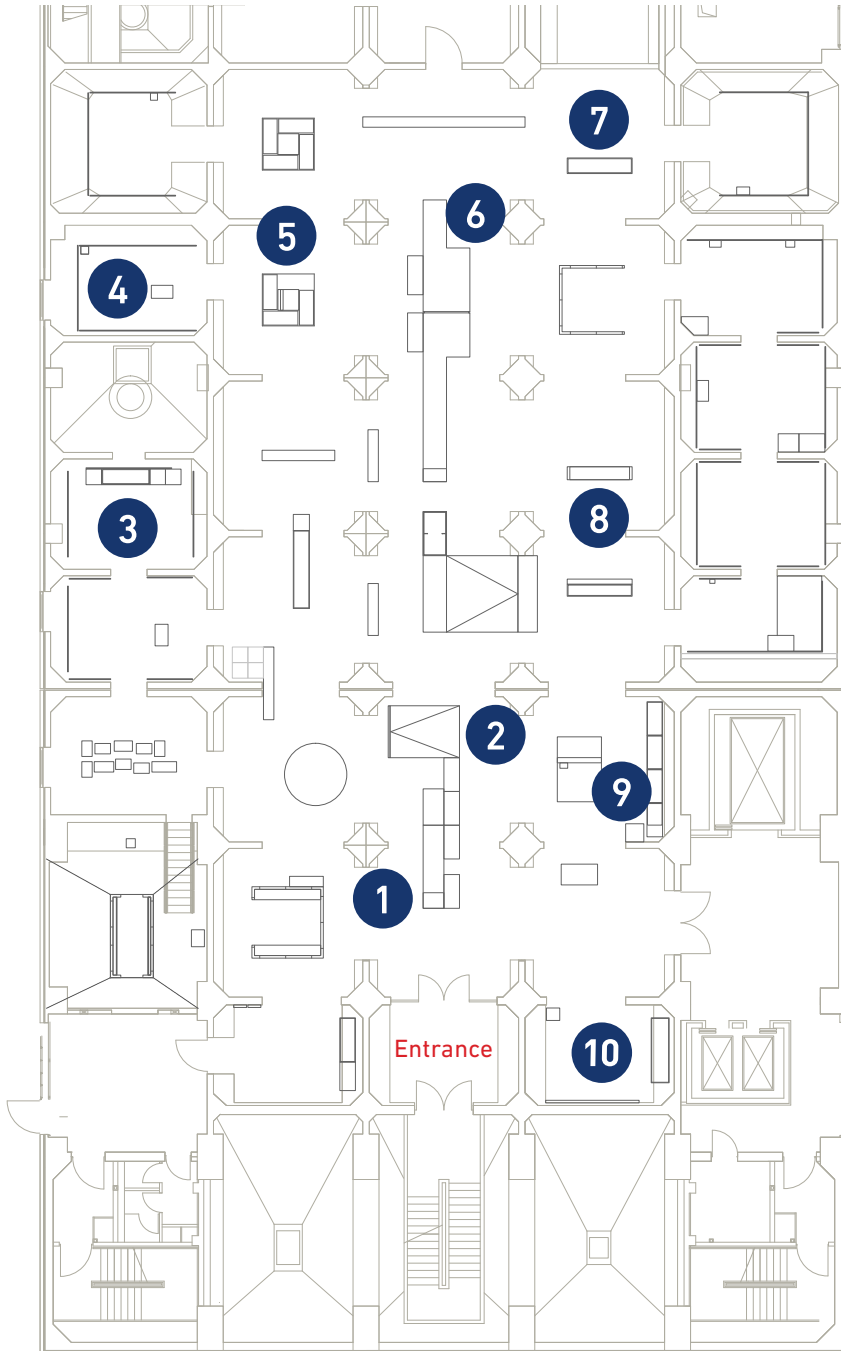

Use the 10 questions in our quiz to discover interesting things about the history of film and cinema in the Ruhr area. You’ll find letters after the correct answers and in the grey boxes. Put these letters together on the last page to reveal the secret word.

To help you locate the places where you can find what you need to answer the questions, we’ve printed an exhibition plan with task numbers on the next page.

**Have fun searching, finding
and figuring it out!**

EXHIBITION PLAN

1

Film projectors were invented more than 100 years ago. These devices use light beams to display “moving pictures” on a screen. Look for this film projector in the exhibition section dedicated to **The Early Days of Cinematography**. The projector was used in Theodor Beulmann’s cinema at the time. Find out which city that cinema was located in!

2

You’ll find the museum exhibit that goes together with this cropped image in **The Cinema Experience** section. What were people able to buy here?

Admission tickets [H]
Ice cream [W]
Popcorn [V]

3

In the **Film Sets and Costumes** section, you will find things that are used in films. These things are known as props. Look for the props that are shown here! Find out the names of the films they were used in and use the pen to connect them with the right posters. Which poster is left over?

[S]

[O]

[N]

[T]

4

More than 60 years ago, many people from Italy, Spain, Greece and Turkey came to Germany in order to work here. There are some really wonderful films that tell the story of how families found a new home in Germany. You might also like the film about the family that's shown in this photo! Find out what the name of the film is in the section dedicated to **Cinema and Film in an Intercultural Context**.

A row of seven empty rectangular boxes, with the fifth box from the left shaded grey.

5

Now go to the **Film and Cinema Advertising** section. Here you will find a display case containing various types of cinema memorabilia. Many people collect things that remind them of a specific cinema experience. One of the objects in the display case is a character from Star Wars. Which one is it?

- R2-D2 [Z]
- Darth Vader [S]
- Luke Skywalker [L]

6

In the **Film and Cinema Technology** section, you will see beautiful old projectors and other devices and equipment used in cinemas. Look for this object. What is it?

A triad

--	--	--	--

 ,

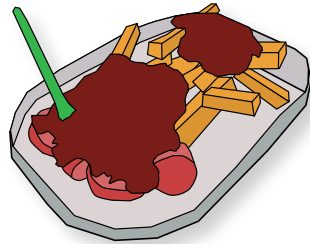

which was used to announce the start of the feature after the advertisements had run.

7

Films shot in the Ruhr area often address actual issues in the region. Look at the poster in **The Ruhr Area as a Filming Location** section: What's the name of the film about the world's best curry sauce?

- Curry-Wurst und Pommes [U]
- Pommes essen [A]
- Curry King [E]

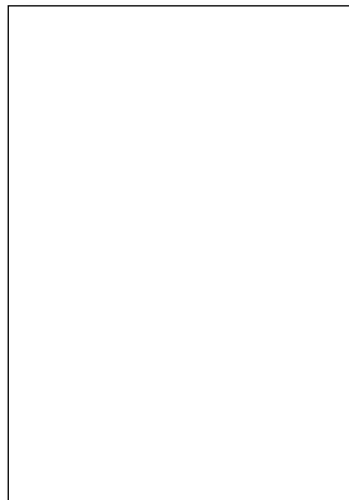

8

Some films are so good that awards are given to the actors or actresses who star in them, or the directors who direct them. In the **Filmmakers and Participants** section, you will find an entire display case filled with glittering prizes with names like "Bambi", "Palme d'Or" or "Silberner Bär", for example.

Draw the award that you like best.

Find out which material the "Oscar" in our display case is made of.

- Coal [E]
- Gold [A]
- Chocolate [O]

9

First there was the cinema, and later television was invented. Nevertheless, a visit to the cinema is still a fantastic and special experience!

Look in the **Cinema in Transition** section for the object that this cropped image goes together with. Find out in which very special type of cinema it was used in.

In

cinemas

10

Many famous actors, actresses and directors visited the Lichtburg cinema in Essen and immortalised themselves by leaving an imprint in wet golden concrete.

Go to the **Essener Filmkunsttheater** section.

What does the golden print in our exhibition show?

- A foot [Q]
- A hand [P]
- A face [N]

SOLUTION

What do many people like to snack on in the cinema?
